17. Server log file

17.1. The Server Log File is the most reliable source of information in a case of any Dispute. The Server Log File has the absolute priority over other arguments including the Client Terminal Log File as the Client Terminal Log File does not register every stage of the execution of the Client's Instructions and Requests.

19.1. In case the Client had been notified in advance by Trading Platform internal mail or some other way of routine construction on the Server, complaints made in regard to any unexecuted Instructions or Requests which are given during such a construction period, are not accepted. The fact that the Client has not received a notice shall not constitute a reason to lodge a complaint.

19.2. Complaints regarding Order execution time are not accepted.

- 19.3. No Client complaints will be accepted in regard to the financial results of the deals made using temporary excess Free Margin on the Trading Account gained as a result of a profitable position (cancelled by the Company afterwards) or opened at an Error Quote (Spike) or by any other reason.
- 19.4. In regard to all Disputes any references by the Client to the Quotes of other Companies or information systems cannot be taken into account.
- 19.5. The Client acknowledges that he/she will not be able to manage the position while the Dispute in regard to this position is being considered and no complaints in regard to this matter are accepted.

21. Safety

**Mandatory Risks Notification on Risk associated with currency
(and /or commodity derivatives) Trading**

Please read the following risk disclosure statement. The purpose of this section is to notify the risk associated with currency / CFD (and / or Commodity Derivatives) Trading. You should understand that trading futures, options and / or foreign exchange carries a substantial risk of loss. Given the leverage involved, these losses can be quite large and occur quite rapidly, potentially exceeding the funds you have deposited in your account or have earmarked as risk capital. You should disregard any suggestions from any source whatsoever that the foregoing risks can be limited, minimized or eliminated. You agree to immediately report any statement to the contrary made to you by Star Net LTD personnel, Introducing Brokers or Trading Advisors who may be directing the trading activity in your account.

The trading of currencies or derivatives like options on currencies involves an extremely high degree of risks of loss and is inappropriate for many individuals. You could lose all or part of the money you deposit in the currency trading account. If you meet any of the criteria set forth above, or if you have pursued only conservative forms of investment in the past, you may wish to study the risks of loss involved in currency trading further before you deem it an appropriate vehicle for you, or you may decide it is entirely inappropriate and never trade.

You should therefore seriously consider whether foreign exchange trading is appropriate for you, especially in light of your own particular circumstances. Trading leveraged product such as forex and CFD's may not be suitable for all investors as they carry a high degree of risk to your capital. Please ensure your full understanding of the risks involved before trading and if necessary seek independent advice. Star Net Ltd. Assumes no responsibility for monitoring your deposit(s), losses or net worth.

Star Net Ltd will not refuse to accept your account if your decision to trade is made with full appreciation of the risk of loss. We require, therefore, that you indicate to us, by signing and returning the enclosed copy of this Supplemental Risk Disclosure letter, that you are fully aware of the substantial risk of loss in trading and accept full responsibility for your decision to trade in the foreign exchange markets.

I understand that aggressive trading, and especially day trading is an extremely high-risk strategy. I understand that such trading generates substantial commission charges to my account. I understand that due to such active trading, the commission charges relative to the funds deposited in my account may exceed what is considered normal or prudent in currency trading. I understand that such commission charges will increase my risk of loss and can account for all or part of my trading losses.

I acknowledge these additional risks and agree to such an aggressive or day trading strategy. I further acknowledge that I am in control of, and responsible for, all trades executed in my account, and I agree to review my account and any open market position daily and report any discrepancy immediately.
